I would like to repsond to public comments on the use of the judges time off.

My opinion is that they should not get anymore time then any of thier staff is allowed under state law and policies. These judge agreed to uphold the laws of this state and yet violate it at their pleasure. they should not be given any special treatment then the clerk that works for them.

I also think that for every day they can't do they job or away from thier bench, they need to be docked that day pay. We don't need them off golfing and PRing. they needed to be on the bench hearing cases. They should not get payed to time off the bench.

Thank you
